

## **James Rinehart Western United Realty Joins Mason & Morse Ranch Company**

### *Mason & Morse Ranch Company Expands Resources and Expertise with 27 year Land Broker and Conservation Professional*

(Laramie, Wyoming, March 2019) As an avid hunter and a desire to call Wyoming home, James Rinehart obtained his real estate license in 1991, and he knew his focus would be on rural farm, ranch and recreational real estate brokerage throughout Wyoming.

After more than 27 successful years in the ranch real estate brokerage business, an opportunity presented itself to merge Western United Realty resources and his professional experiences with Mason & Morse Ranch Company.

“The changing dynamics of land brokerage and my commitment to provide expertise, experience and effective marketing services for clients were key decision factors in selecting Mason & Morse Ranch Company as a partner for the years ahead.” said James Rinehart.

When the opportunity to merge with Mason & Morse Ranch Company presented itself, James knew it was the right time and a great match. He recently made the choice to merge his firm, Western United Realty, and resources with Mason & Morse Ranch Company and team of like-minded and experienced land brokerage professionals.

“With roots dating back to 1961 Mason & Morse Ranch Company has long been an outstanding brokerage firm throughout Colorado, Wyoming and the American west. James Rinehart's years of experience, honesty, integrity and respect as a professional farm and ranch broker certainly model our Live it to know it philosophy.” said Bart Miller, Managing Broker Mason & Morse Ranch Company.

Combining resources will further enable Mason & Morse Ranch Company to enhance client services in Wyoming and throughout the region.

James's satisfaction as a farm and ranch broker stems from helping improve wildlife habitat and wide-open spaces through the sales of quality hunting and fishing properties utilizing conservation practices. Over the years the opportunities to be involved in conservation ranch brokerage has increased. James has been involved in approximately 75,000 acres of conservation easement related transactions for buyers and sellers, either through the sale of eased ranches, the placement of easements after the sale or lands being placed under permanent protection.

In addition to conservation practices, James has taken pride in his ability to showcase the details of ranch properties better than most, and to facilitate the necessary due diligence ensuring those details are brought forward at an early stage in the transaction process for buyers and sellers.
